

## Mungo stories

LAKE Mungo's past is brought back to life in an exhibition by Brenda Runnegar, on display at Stefano's Gallery 25.

"Hills of Sand", put together by the Canberra-based artist, explores Mungo's landscape and evolutionary history.

"I ... visited Lake Mungo (in August) and since then I've been working on that area of the world," Ms Runnegar, who has just started painting full-time, said.

The exhibition is open until January 28.
